

COLLECT. LOCATE. MONITOR. ANALYZE. VISUALIZE.

### Empowering Law Enforcement & Government Agencies with Actionable Intelligence

SS8 Networks offers the fastest and simplest way to collect, locate, monitor, analyze, and visualize lawful intelligence data. For nearly 25 years, we have been evolving and optimizing our solutions for Law Enforcement (LEA) and Government Intelligence Agency analysts, enabling them to turn complex data sets into actionable intelligence in real-time.

With the proliferation of interconnected devices, communication channels, and end-to-end encryption, SS8 assists LEAs in accelerating their investigative processes. We empower them with streamlined data management; dynamic, real-time visualizations; and workflow-oriented solutions tailored specifically for analysts.

## Intellego XT

SS8's Intellego XT platform provides superior data monitoring, fusion and analysis solutions to help Law Enforcement and Intelligence Agencies combat crime.

## Discovery

A cloud based on demand digital criminal investigation service. Scaling cost effectively to meet operational needs of agencies of all sizes.

## A COMPREHENSIVE APPROACH TO LAWFUL AND LOCATION INTERCEPTION

### COLLECT INTELLIGENCE & UPLOAD

- Communications (voice, data, location)
- Images, video, social media
- Statements and open-source data

### ANALYZE DATA & CONNECT

- Timeline reconstruction
- Link and network analysis
- Pattern-of-life & geofencing

### IDENTIFY SUSPECTS

- Facial similarity
- License plate recognition (ANPR)
- Device, account & financial attribution

## FEATURES:

### Embedded AI Investigative Acceleration

Integrated voice analytics, facial similarity comparisons, object recognition, complex data correlation, and automated reporting surface critical insights in minutes. Analysts identify patterns faster, corroborate leads with precision, and reduce investigative timelines from weeks to hours.

### Enhanced Unified Data Fusion – 360° Subject View

Automated correlation of network intelligence, OSINT, MAID location data, device forensics, GEOINT, IMINT, SIGINT, and third-party datasets delivers a single-pane-of-glass investigative environment. Fragmented tools are replaced with seamless cross-source analysis and stronger identity resolution.

### Create Comprehensive Digital Fingerprints

Combines encrypted communications traffic with third-party intelligence sources to construct complete, multi-dimensional and actionable subject profiles.

### Visualize Real-Time Location-Based Intelligence

Advanced mapping and geo-fencing visualizes device movements and patterns of life along with alerting capabilities to strengthen situational awareness and proactive monitoring.

### Simplify Evidence Submission and Auditing

Secure storage of historic and real-time data supports forensic analysis and comprehensive audit trails. Structured workflows strengthen evidentiary integrity and support admissible prosecution-ready reporting.

### Discovery: On-Demand Criminal Investigations

All the power of Intellego XT delivered in a secure SaaS model. Monitor, analyze, locate, and visualize intelligence in a pay-as-you-go, per-seat deployment aligned to operational demand. No major upfront IT investment.
