

INTELLEGO XT AND DISCOVERY

AI-DRIVEN INTELLIGENCE & UNIFIED DATA FUSION — INSIGHTS WITH IMPACT

Designed specifically for law enforcement and intelligence agencies, the latest expansion of Intellego XT and Discovery embeds advanced AI directly into the investigative workflow — enhancing data fusion, simplifying triage, and integrating powerful visualization — all within a single unified platform that keeps investigators focused on what matters most.

NEW AI-DRIVEN INVESTIGATIVE ACCELERATION

Voice Analytics

Rapid transcription and comparison of voice samples for suspect identification and link analysis.

Facial Similarity Comparisons

Advanced facial matching across images and video to uncover associations and corroborate leads.

Object Recognition

Automated detection of relevant objects in video and image files to surface critical visual evidence.

Complex Data Analysis

AI-driven correlation of communications, location data, and third-party datasets to reveal meaningful connections.

Automated Reporting

Streamlined generation of comprehensive investigative reports - reducing administrative burden and accelerating case progression.

Impact:

- Investigative timelines reduced from weeks to hours.
- Critical insights surfaced in minutes instead of days.
- AI acts as a true force multiplier for analysts.

NEW ENHANCED UNIFIED DATA FUSION

Integrated Intelligence Streams

Enabling agencies to manage, correlate, and analyze diverse investigative datasets in a single pane of glass.

- Network Intelligence
- Social Intelligence
- High-Precision Location Intelligence
- Device Forensics
- OSINT (Open-Source Intelligence)
- MAID (Mobile Advertising ID Data)
- Carrier and OTT Communications
- Commercial and Public Data Sources

Eliminate Fragmented Workflows

Manage all investigative data in a single platform - no multiple vendors or disconnected tools.

Automate Correlation

Reduce manual data stitching: let the platform connect the dots across data sets.

360° Subject of Interest (SOI) View

Connect disparate data points to uncover hidden relationships and strengthen identity resolution.

THE RESULT

- Unified intelligence platform
- Stronger identity resolution
- Reduced investigative timelines
- Automated workflows
- Operational advantage at every level
- Faster actionable intelligence

Learn how we can help you make lawful and location intelligence simple, efficient, compliant, and scalable.
