

# ACCELERATING ACTIONABLE INTELLIGENCE FROM SEIZED DEVICES

## INTELLEGO XT TACTICAL LOCATION ANALYTICS

Field agents often confiscate multiple mobile devices during missions, each harboring critical forensic location data. Intellego XT's (INXT) Tactical Location Analytics empowers agents to swiftly extract and analyze this time-sensitive information on-site, maximizing investigative opportunities. For example, agents can identify the delivery location of a drug shipment before criminals realize their operation is compromised.

INXT Tactical provides agents with an efficient solution that runs on a single laptop, requires no internet connection, and features intuitive, drag-and-drop data ingestion. With a browser-based user interface and no client installation needed, it transforms seized data into real-time, actionable intelligence.

### KEY FEATURES OF INXT TACTICAL

- Operates on a standalone laptop
- No internet connection required
- Intuitive drag-and-drop data ingestion
- Browser-based user interface, no client installation needed

This cutting-edge solution not only streamlines the investigative process but also ensures that agents can act decisively in critical situations. By enabling the quick analysis of location data from multiple devices, INXT Tactical helps agents uncover hidden connections, track movements, and gather crucial evidence. Providing agents with a powerful, efficient solution for on-the-go analysis.

### USE CASES

Criminal Investigations

Counterterrorism

Border Security

Trafficking (Human and Drug)

Fraud Detection

When a device is seized, time is often of the essence. Tactical INXT provides instant on-the-spot forensic analysis. Using an intuitive graphical user interface (GUI), investigators can quickly extract and assess relevant information. This real-time capability enhances situational awareness, supports rapid decision-making, and improves operational effectiveness in dynamic environments.

### KEY BENEFITS OF TACTICAL INXT

- **Real-Time Data Collection:** Enables immediate extraction and analysis of location data in the field, delivering timely intelligence that is crucial for active operations.
- **Portability and Flexibility:** Designed for mobility, INXT Tactical allows forensic teams to operate effectively across different environments and conditions without reliance on fixed infrastructure.
- **Enhanced Decision-Making:** Rapid access to critical information empowers teams to make informed decisions faster, improving response times to emerging threats.
- **Seamless Integration:** Can be integrated with Intellego XT, enhancing situational awareness and overall operational efficiency through a more comprehensive intelligence framework.
- **Improved Accuracy and Detail:** Utilizes advanced data enrichment techniques to refine and enhance collected information, leading to more precise and actionable intelligence.

### WHY CHOOSE SS8 NETWORKS?

- A. It is our mission to provide the most advanced Lawful Intelligence solutions today, to assure a safer tomorrow.
- B. Our solutions are designed to exceed our customers' needs and help them successfully navigate the changing world of communication data.
- C. We expedite investigative results by combining and analyzing multiple data sources simultaneously, providing new levels of visibility.
- D. We are trusted by the world's leading Law Enforcement Agencies (LEAs), and CSPs because our powerful, compliant solutions deliver results.

Learn how we can help you make lawful and location intelligence simple, efficient, compliant, and scalable.
